SUMMARY

I'm a motivated business analyst making a shift into web development. I love solving problems creatively and working with different teams to turn ideas into reality. With over five years of experience in budget planning and building complex financial and marketing models, I'm detail-oriented and proactive. My ambition drives me to excel in any development project.

STRENGTHS

Go-getter

I embody a 'go-getter' mentality, always aiming to achieve and surpass goals. I'm proactive in seeking out ways to innovate and solve problems, pushing boundaries to deliver outstanding results.

Analytical thinker

My analytical thinking skills are one of my greatest strengths. I excel at breaking down complex problems into manageable parts and finding innovative solutions. This ability allows me to understand user requirements deeply, debug code efficiently, and continually improve the quality and functionality of web applications.
